

for the
**WASATCH COUNTY
COMMISSION**

**WALTER
MONTGOMERY**

**GUY
COLEMAN**

Dear Fellow Citizens,

We are writing to solicit your support in the coming election of November 4th.

If elected, we pledge ourselves to promote economy in public service, to foster and protect our agriculture, to encourage new industry in our county, to conserve our natural resources and to protect the way of making a living of every person within our county.

We want to promote the development of our great potential recreational area, including the State Park and the Mill Flat County Park. This must be done to offset our loss of taxable properties and job opportunities.

In addition there is a need to restrict the notorious "give away" programs such as we experienced in the Strawberry project of past years.

We will put forth every effort to aid in the development of the proposed Bates Reservoir and to discourage the raising of the present Deer Creek Dam.

Sincerely yours,

Sincerely yours,

Walter Montgomery

Guy Coleman
